

# Webinar on Moodle Plug-In Development

Presented by Theodore Krahn

Date/Time: 10 AM on Friday, April 17, 2020 in Edmonton's time

**VIP Research Group** proudly presents Webinar on Moodle Plug-In Development delivered by Mr. **Theodore Krahn**, who is a current Athabasca University MScIS student. In this Webinar, Ted prepares a simple clean Moodle plug-in template for audience and will explain step by step on How-Tos: enabling configurable user interface for Moodle course administrator/teacher; making a Moodle plug-in capable of accessing Moodle database and creating its own tables for data storage purpose; allowing students to use and submit data with the plug-in; implementing multi-language support feature; include an unpublished as well a published Moodle plug-in in a course; and, submit your developed plug-in for reviewing and for the consideration of including it in the Moodle plug-in repository. If you are looking for the answer(s) of any of the above-mentioned How-Tos, you are welcome to the webinar!
